

ICU Medical, Inc. Announces Fourth Quarter 2018 Results

February 28, 2019

SAN CLEMENTE, Calif., Feb. 28, 2019 (GLOBE NEWSWIRE) -- ICU Medical, Inc. (Nasdaq:ICUI), a leader in the development, manufacture and sale of innovative medical devices used in infusion therapy and critical care applications, today announced financial results for the quarter ended December 31, 2018.

Fourth Quarter 2018 Results

Fourth quarter 2018 revenue was \$340.4 million, compared to \$370.1 million in the same period last year. GAAP gross profit for the fourth quarter of 2018 was \$134.6 million, as compared to \$137.5 million in the same period last year. GAAP gross margin for the fourth quarter of 2018 was 40%, as compared to 37% in the same period last year. GAAP net loss for the fourth quarter of 2018 was \$7.4 million, or \$0.36 loss per diluted share, as compared to GAAP net income of \$49.7 million, or \$2.33 per diluted share, for the fourth quarter of 2017. Adjusted diluted earnings per share for the fourth quarter of 2018 were \$2.07 as compared to \$2.98 for the fourth quarter of 2017. Also, adjusted EBITDA was \$69.3 million for the fourth quarter of 2018 as compared to \$70.1 million for the fourth quarter of 2017.

Adjusted EBITDA and adjusted diluted earnings per share are measures calculated and presented on the basis of methodologies other than in accordance with GAAP. Please refer to the Use of Non-GAAP Financial Information following the financial statements herein for further discussion and reconciliations of these measures to GAAP measures.

Vivek Jain, ICU Medical's Chief Executive Officer, said, "Fourth quarter revenues, adjusted EBITDA and adjusted diluted earnings per share were in line with our expectations."

Use of Non-GAAP Financial Information

This press release contains financial measures that are not calculated in accordance with U.S. generally accepted accounting principles ("GAAP"). The non-GAAP financial measures should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. There are material limitations in using these non-GAAP financial measures because they are not prepared in accordance with GAAP and may not be comparable to similarly titled non-GAAP financial measures used by other companies, including peer companies. Our management believes that the non-GAAP data provides useful supplemental information to management and investors regarding our performance and facilitates a more meaningful comparison of results of operations between current and prior periods. We use non-GAAP financial measures in addition to and in conjunction with GAAP financial measures to analyze and assess the overall performance of our business, in making financial, operating and planning decisions, and in determining executive incentive compensation. The non-GAAP financial measures included in this press release are adjusted EBITDA and adjusted diluted earnings per share ("Adjusted Diluted EPS").

Adjusted EBITDA excludes the following items from net income:

Interest, net: We exclude interest in deriving adjusted EBITDA as interest can vary significantly among companies depending on a company's level of income generating instruments and/or level of debt.

Stock compensation expense: Stock-based compensation is generally fixed at the time the stock-based instrument is granted and amortized over a period of several years. The value of stock options is determined using a complex formula that incorporates factors, such as market volatility, that are beyond our control. The value of our restricted stock awards is determined using the grant date stock price, which may not be indicative of our operational performance over the expense period. Additionally, in order to establish the fair value of performance-based stock awards, which are currently an element of our ongoing stock-based compensation, we are required to apply judgment to estimate the probability of the extent to which performance objectives will be achieved. Based on the above factors, we believe it is useful to exclude stock-based compensation in order to better understand our operating performance.

Intangible asset amortization expense: We do not acquire businesses or capitalize certain patent costs on a predictable cycle. The amount of purchase price allocated to intangible assets and the term of amortization can vary significantly and are unique to each acquisition. Capitalized patent costs can vary significantly based on our current level of development activities. We believe that excluding amortization of intangible assets provides the users of our financial statements with a consistent basis for comparison across accounting periods.

Depreciation expense: We exclude depreciation expense in deriving adjusted EBITDA because companies utilize productive assets of different ages and the depreciable lives can vary significantly resulting in considerable variability in depreciation expense among companies.

Restructuring, strategic transaction and integration: We incur restructuring and strategic transaction charges that result from events, which arise from unforeseen circumstances and/or often occur outside of the ordinary course of our ongoing business. Although these events are reflected in our GAAP financial statements, these unique transactions may limit the comparability of our ongoing operations with prior and future periods.

Bargain purchase gain: We may incur a bargain purchase gain on certain acquisitions if the fair market value of the identifiable assets acquired and liabilities assumed, net of deferred taxes exceeds the total consideration paid. We exclude such gains as they are related to acquisitions and have no direct correlation to the operation of our ongoing business.

Change in fair value of contingent earn-out: We exclude the impact of certain amounts recorded in connection with business combinations. We exclude items that are either non-cash or not normal, recurring operating expenses due to their nature, variability of amounts, and lack of predictability as to occurrence and/or timing.

Contract settlement: Occasionally, we are involved in contract renegotiations that may result in one-time settlements. We exclude these settlements as they have no direct correlation to the operation of our ongoing business.

Disposition of certain assets: Occasionally, we may dispose of certain assets if no longer needed for current operations. We exclude any gains or losses recognized on the sale of these assets in determining our non-GAAP financial measures as they may limit the comparability of our ongoing operations with prior and future periods and distort the evaluation of our normal operating performance.

Adjusted Diluted EPS excludes from diluted EPS, net of tax, interest, net, intangible asset amortization expense, stock compensation expense, restructuring, strategic transaction and integration, change in fair value of earn-out, disposition of certain assets, contract settlement and bargain purchase gain, which was tax free and the impact of tax reform. We apply our GAAP consolidated effective tax rate to our non-GAAP financial measures, other than when the underlying item has a materially different tax treatment.

From time to time in the future, there may be other items that we may exclude if we believe that doing so is consistent with the goal of providing useful information to investors and management.
